Sir:

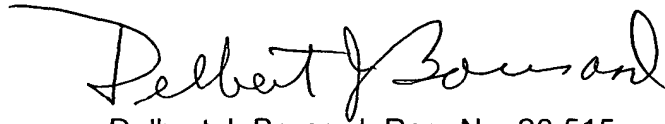

In response to the Office Action dated July 8, 2003, applicant elects the candy product claims 4-14 for further prosecution in this application.

The subject matter of non-elected method claims 1-3 is not being abandoned. Rather, it will in due course be made the subject matter of a divisional application directed to a method of manufacturing a candy product.

It is submitted that the elected claims 4-14 are patentable. Accordingly, early reconsideration and allowance of the application are requested.

Respectfully submitted:
